Dear Honorable Mayor:

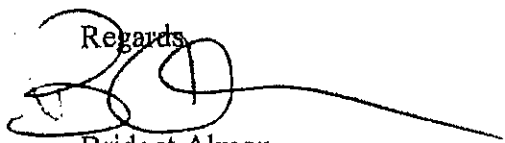

Please find attached the updated amortization schedule for the Diman Regional School project. The schedule was prepared by UNIBANK with Diman's finance team and OPM (Owners Project Manager). The key point to note is that the reimbursement share of 51% used in the analysis by Diman's administration remains unchanged from their presentation on February 22, 2022. Attached please find copies of pages 24 & 26 of Diman's February 22, 2022, presentation projecting a \$6.5 million debt assessment to Fall River. The \$6.5 million debt assessment was based on a 3.5% annual interest rate. However, the economic landscape has since changed, and interest rates have risen.

The updated amortization schedule now shows an estimated interest rate of 5%. This is based on conversations with UNIBANK and Hilltop Securities, Inc. The new projection assumes an interest rate of 5% which is subject to change depending on the date of borrowing. The tax impacts presented are based on the median value in Fall River for 2024 of a single-family, two-family, three-family, and commercial property.

Starting in 2026, the City will begin to see the impact of payments of \$4.7 million. The estimated payment is projected to increase from \$6.5 million to \$6.9 million in 2028 and then again to over \$7.3 million in 2032.

If you have any questions or need further clarification, please do not hesitate to contact me.

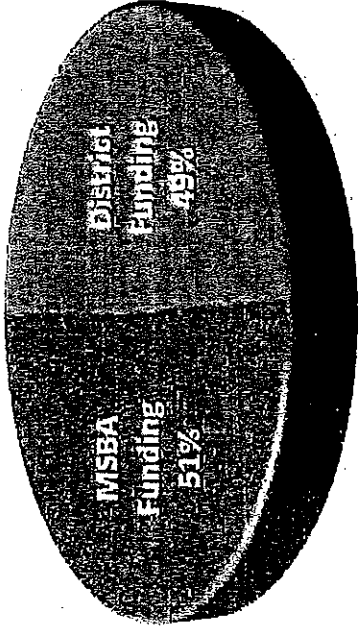

Regards,

 Bridget Almon
 Director of Financial Services

STATUTORY PRESENTMENT AND DEMAND

Fall River Housing Authority

Attention: Kevin Sbardella Executive Director of the Fall River Housing Authority 85 Morgan Street,
Fall River, MA 02722

Re: Our Client: Jessica Gamson

Dear Sir:

This letter of presentment is being sent to you pursuant to M.G.L. Ch. 258 §4, and M.G.L. Ch. 84 §18. Please be advised that I represent Jessica Gamson of Edward F. Doolan Apartments 81 D Mitchell Drive Fall River, MA 02724 with regard to injuries sustained in a slip and fall on 05/10/2024, at the crosswalk located in front of building 65 on Mitchell Drive in Fall River, MA, due to your insured's negligence.

On 5/10/24 at about 745am out front of building 65, there is a shared curb with buildings 71 and 81, there is a crosswalk located there that goes across Mitchell Drive. Mrs. Gamson was heading out to meet her friend who was parked on Mitchell Drive to run errands. As she went to walk through the crosswalk she stepped on the white painted line, see attached pictures, slipped and fell, injuring her right knee and left ankle. She states that building maintenance had recently painted those lines and used latex interior paint, not the type of paint that should be used for parking lines. There had been some light rain that day and the latex paint was slippery and this caused her to fall. The Fall River Housing Authority was negligent in painting the crosswalk lines with latex interior paint creating a dangerous hazard that caused Mrs. Gamson to fall.

Please see the attached pictures showing precisely where she fell marked by a rectangular light blue package she placed on the ground to show where she fell.

Demand – as the client is still treating at this time and the full value of their injuries is unknown, the value to settle this claim at this time is five million dollars, \$5,000,000.00. This demand is being provided according to the requirements set forth under chapter 258, section 4 of The Massachusetts General Laws.

To whom it may concern,

I am writing the council in regards to my Auto Repair license, number 329, Located at 193 Oak Grove Ave Fall River MA 02723. Restriction number two (2) shows no auto sales permitted. Earlier this year I was granted a variance to operate auto sales on this property with no opposition from surrounding abutters. I am writing to ask the council to remove this restriction. At the same time there is an error on my repair license, it states Timothy Pinto DBA S M Automotive, LLC, this is incorrect. The correct business name is S M Automotive, LLC DBA S M Automotive Repair. My residential address has also since changed, it is 110 Arthur St Fall River, MA 02720. Thank You for your time.

Dear Mr. Aguiar:

Liberty Utilities is proposing to work at 15 Robeson St to identify the location of our 6" PE main. This road is under the city's 5-year road moratorium and requires City Council approval before Liberty can access our gas utility infrastructure. Liberty Utilities will reconstruct the road under the 5-year moratorium to meet the City of Fall River's reconstruction requirements and to the satisfaction of both the Public Works and Engineering Departments. Liberty will restore the roadways older than the 5-year moratorium to their pre-construction condition in compliance with the street restoration requirements in D.T.E. 98-22. Please review and contact me with any questions or concerns regarding this request. I can be reached at (508) 402-1797 or olivia.kmito@libertyutilities.com

RE: Liberty Utilities-5 Year Street Opening Request-Oak Grove Avenue and New Boston Road

The Engineering Department is in receipt of a permit request regarding the proposed installation of upgraded Natural Gas infrastructure within an intersection that falls within our five-year moratorium.

All permits granted from the Engineering Department will require complete restoration of the roadway.

Attached are the following items:

1. Cover letter from Liberty Utilities.
2. Pending Street Opening Permit
3. Site Plan

I respectfully request that the matter be considered at the next available City Council meeting. I am available at your convenience to discuss the matter if need be. Thank you for your attention.

Fall River, MA 02722

Dear Mr. Aguiar:

Liberty Utilities is proposing to work at the intersection of Oak Grove Ave and New Boston Rd, in accordance with the Gas Leaks Act annual plan to repair or replace aged natural gas infrastructure in the interest of public safety and to reduce lost and unaccounted for gas ("LAUF"). This intersection is under the city's 5-year road moratorium and requires City Council approval before Liberty can access our gas utility infrastructure. Liberty Utilities will reconstruct the intersection under the 5-year moratorium to meet the City of Fall River's reconstruction requirements and to the satisfaction of both the Public Works and Engineering Departments. Liberty will restore the roadways older than the 5-year moratorium to their pre-construction condition in compliance with the street restoration requirements in D.T.E. 98-22. Please review and contact me with any questions or concerns regarding this request. I can be reached at (508) 965-4048 or matthew.sullivan@libertyutilities.com

Fall River, MA 02722

Dear Mr. Aguiar:

Liberty Utilities is proposing to work on Palmer St. from S. Main St. to Stafford Rd. as part of the 2024 GSEP (Gas System Enhancement Plan) in accordance with the Gas Leaks Act annual plan to repair or replace aged natural gas infrastructure in the interest of public safety and to reduce lost and unaccounted for gas ("LAUF"). Three intersections have been identified as being under the city's 5-year road moratorium and requires City Council approval before Liberty can access our gas utility infrastructure.

- Palmer St @ Stafford Rd (Liberty will be 25' into the roadway on Stafford Rd from the western curbline of Stafford Rd)
- Palmer St @ E. Main St (Liberty will be 15' into the roadway on E. Main St from both the northern and southern curblines of Palmer St)
- Palmer St @ Wilbur St (Liberty will be 15' into the roadway on Wilbur St from the southern curbline of Palmer St)

Liberty Utilities will reconstruct the intersection under the 5-year moratorium to meet the City of Fall River's reconstruction requirements and to the satisfaction of both the Public Works and Engineering Departments. Liberty will restore the roadways older than the 5-year moratorium to their pre-construction condition in compliance with the street restoration requirements in D.T.E. 98-22. Figure 1: PREPARATORY TIE-IN DESIGN DETAIL FOR DWELLY ST. AT S. MAIN ST.

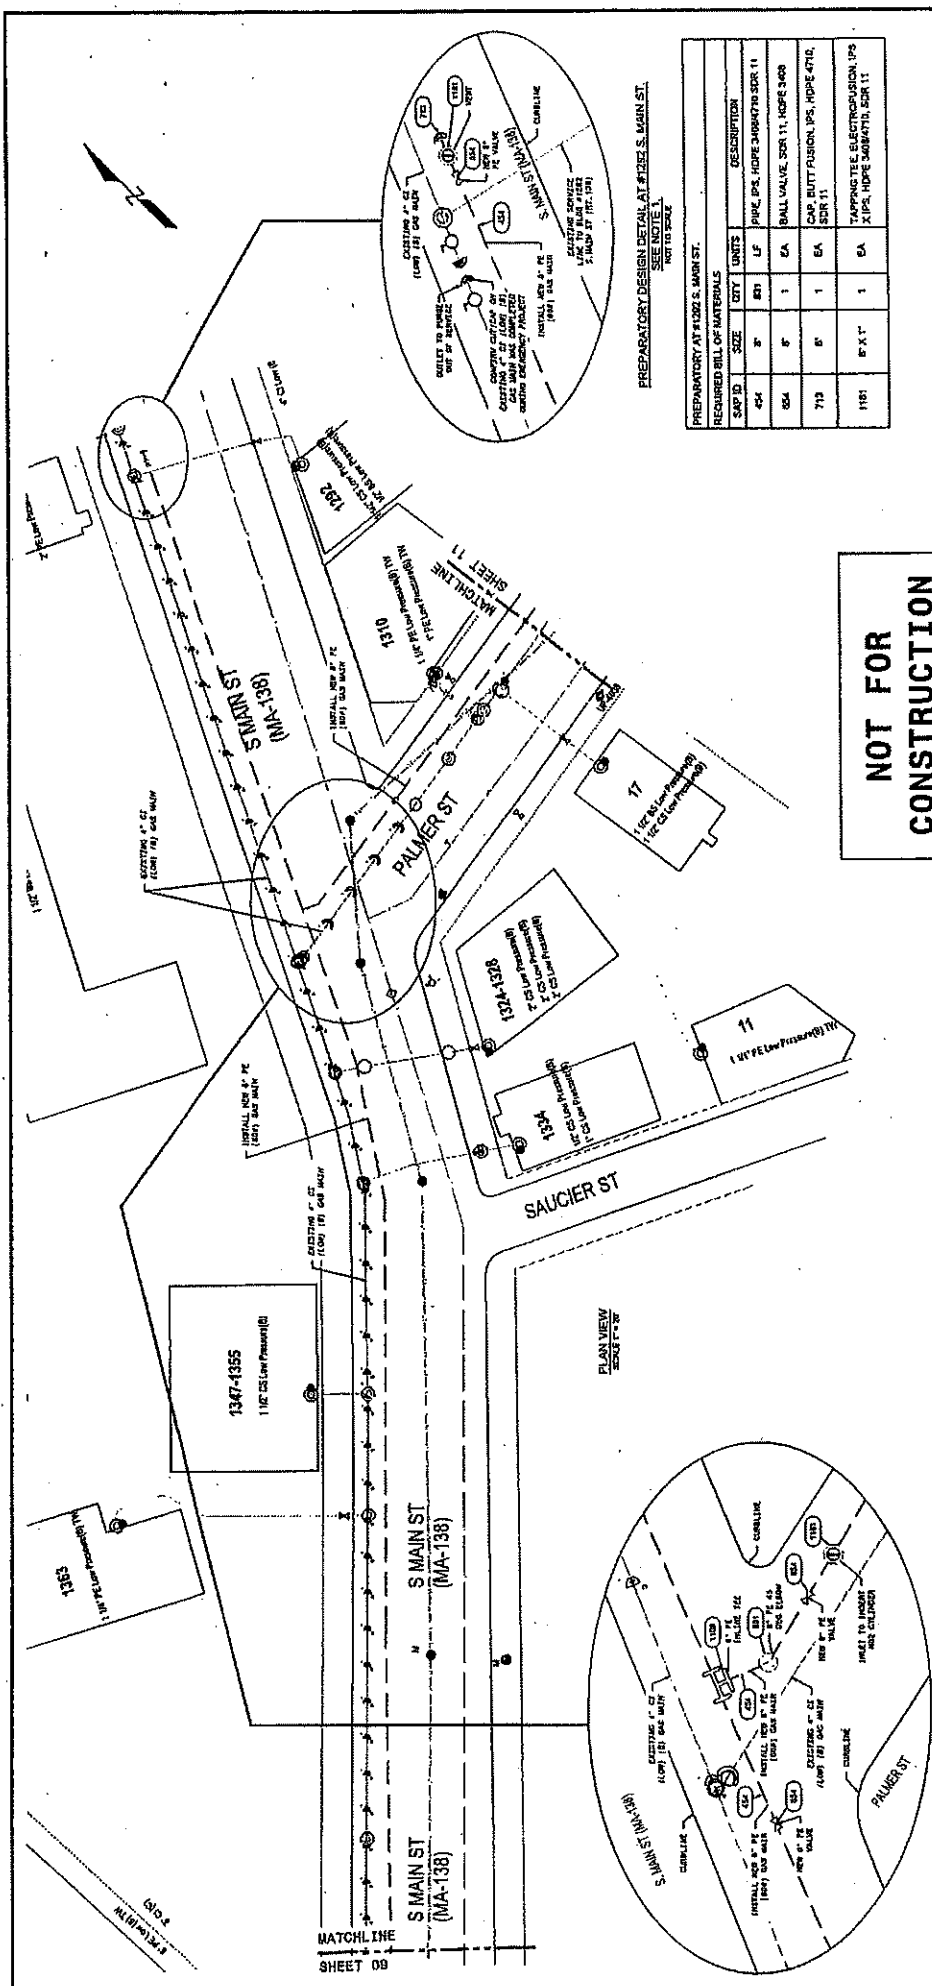

Figure 1 shows a plan view of the intersection of Dwelly St. and S. Main St. The diagram illustrates the proposed tie-in design, including the existing and proposed pavement structure, the location of the tie-in, and the stationing of the tie-in. The tie-in is shown as a new section of pavement (P.C. FE) that is 100 feet wide and 60 feet long, extending from the existing pavement (P.C. (100 FT) 150' WIDE) to the new pavement (P.C. (100 FT) 150' WIDE). The tie-in is shown as a new section of pavement (P.C. FE) that is 100 feet wide and 60 feet long, extending from the existing pavement (P.C. (100 FT) 150' WIDE) to the new pavement (P.C. (100 FT) 150' WIDE). The tie-in is shown as a new section of pavement (P.C. FE) that is 100 feet wide and 60 feet long, extending from the existing pavement (P.C. (100 FT) 150' WIDE) to the new pavement (P.C. (100 FT) 150' WIDE).
